**HYPERTENSION
CANADA
PROFESSIONAL
CERTIFICATION
PROGRAM (HC-PCP)**

THE PROGRAM IS DESIGNED TO:

- Provide the knowledge and confidence to identify and manage patients with hypertension
- Use practical application and skill-building to implement hypertension management strategies at the primary care level
- Provide evidence-based learning with a goal to improve guidelines adoption and adherence

COURSE OVERVIEW

- 4 online learning modules
- Comprehension testing
- Demonstration of blood pressure measurement technique
- Use of a hypertension registry to assist in patient management
- Submission of three patient cases for evaluation and feedback by hypertension experts

The learning modules encompass the fundamentals of hypertension, epidemiology and pathophysiology of hypertension, screening, diagnosis, as well as pharmacological and non-pharmacological management. The modules are self-paced to allow clinicians the flexibility to work according to their individual schedules, with comprehension testing and access to a suite of practical tools and resources.

The HC-PCP learning activity is accredited for 30 CEUs as an independent study program by the Canadian Council on Continuing Education in Pharmacy (CCCEP)
